

## School Attainment Results: 2016 – 2017

### Overview

Wallands has seen some good progress on data over the last period, recovering in part from the previous annual results. We have seen solid increases in the number of children making expected progress in maths for Key Stage 1 (up 7%) and significant increases in Key Stage 2 reading (up 15%) and maths (up 10%). As average scaled scores, we have seen moderate increases across Key Stage 2 reading and maths and in spelling, grammar and punctuation.

However, we have much work still to do. These good results sit against a decline in our Year 1 phonics check. We have fewer children achieving at the greater depth standard than in past years and show some decline in the average progress in Key Stage 2.

The school is narrowing the gap in comparison to national results and in some areas, such as the Early Years Foundation Stage, is performing above national bench marks. Overall, these results show some solid but mixed progress – we note and celebrate the strong work of teachers and children alike in raising performance, but we are focused on continuing to close gaps where necessary and target our weaker areas over the coming years.

We are happy to explore this data in greater depth, including the meaning of these categories, at the termly Parent Forum. For further, detailed, information, go to: <https://www.compare-school-performance.service.gov.uk/school/114405>
